Subject: Media Right Comes To Charlotte NC

Following years of experience in the custom integration market, serving New England and becoming the area's premier custom integrator we are proud to announce the opening of the **Charlotte NC location**. Conveniently located at 650 Pressley Road, Charlotte NC just off I-77 close to the downtown area.

We are very excited about this new location as Charlotte remains a power house in the southern United States. With Media Right's knowhow of working in ocean front properties dating back over 155 years in New England we bring to Charlotte NC a "can-do" attitude for retro installation second to none.

The custom integration business is a new and challenging business of the future. More and more home and business owners look to technology of the future to solve day to day problems and ways to improve the quality of life both in the home and place of work. Media Right aims to remain at the front cutting edge in technology. We have been installing the very best in whole home digital interactive audio system and building some brilliant custom home theaters. Now, enter the **GREEN HOME**. We all just got used to the term IT and now it's **ET**, not the extraterrestrial variety but the Environmental Technology buzz. We all know it makes good sense to save on energy as energy and fuel costs continue to rise. Media Right can today advise and install the best integrated solutions for new home construction, existing homes and business for today and the future.

Charlotte NC will be a very exciting future for Media Right SAS, LLC and we look forward to exceed the expectations of all in the Tar Heel state!

Contact Media Right at 866-293-7801 for further information or visit www.mediarightsas.com
